	2.1.4	Higher Studies	
	2.1.5	Competitive Exams	
	2.2	Skill Development Activities	
	2.2.1	Skill Enhancement Lectures	
	2.2.2	Entrepreneurship in practice (Winter internship 25 -26)	
		2.2.2.1	Workshop Series Session1 : Innovators School – Prompt to Product
		2.2.2.2	Workshop Series Session 2: Innovation Using GitHub Copilot
		2.2.2.3	The Startup Interaction & Learning Series - Cohort I: Ideation & Market Strategy
		2.2.2.4	Startup Interaction & Learning Series – Cohort II on MVP Building & Funding Opportunities
		2.2.2.5	Build-a-thon '26: Entrepreneurship in Practice
	2.2.4	GATE Preparation Bootcamp	
	2.2.5	Technology Day - Department Day	
		2.2.5.1 Pradarshini' 26	
		2.2.5.2 BuzzPro' 26 - Technical Paper Contest	
	2.2.6	Universal Human Values (UHV) Session on Harmony	
	2.2.7	Certification Exams:	
	2.3	Tinkerers' Lab : Code Cell Activities	
	2.3.1	Syrus Hackathon 2026	
	2.3.2	Google Cloud Study Jam	
	2.3.3	Flutter & Firebase Workshop	
	2.3.4	Techsprint Hackathon: A power-packed Online Hackathon hosted by GDG on Campus	

Vivekanand Education Society's Institute of Technology

Approved by AICTE & Affiliated to University of Mumbai

	2.3.7	Technical session on 'On-Device AI with Gemma 3n & PaliGemma 2'	
	2.4	Project Innovations / Competitions	
	2.5	Industry Projects	
	2.6	Co-curricular activities	
	2.6.1	Participation in Inter College Competitions	
	2.6.2	Participation in Intra College Competitions	
		2.6.2.1	IEEE Events
		2.6.2.2	ISA Events
		2.6.2.3	ISTE Events
		2.6.2.4	CSI Events
	2.7	Extra Curricular Activities	
	2.7.1	Inter College Extra curricular Activities:	
	2.7.2	Intra College Extra curricular Activities	
		2.7.2.1	Cultural Events
		2.7.2.2	SoRT Events
		2.7.2.3	Sports Events
	2.8	Alumni Interaction	
	2.8.1	V-REACH'26	
	2.8.2	Alumni Meet 2025-2026	
	2.9	Internships	
	2.10	Scholarships Applied / Received	
	2.11	Annual Prize Distribution Ceremony

Academic Year 2025-2026

Department Report (From 1st November 2025 till 15th April 2026)

Various activities conducted in the Department of Computer Engineering in the academic year From 1st November 2025 till 15th April 2026 have been categorized as mentioned below:

1.	Faculty Contributions
1.1	Courses/Workshops conducted by Department One-Week ISTE-Approved Short Term Training Programme on Industrial Training in “Data Engineering: Powering Data-Driven Innovation” from 12th Jan 2026 to 17th Jan 2026 Organized by Department of Computer Engineering In Association with VESIT-IQAC (STTP No. MAH103)  Mumbai, Maharashtra, India 🇮🇳 Hashu Adwani Memorial Complex, Collector's Colony, Collector Colony, Chembur, Mumbai, Maharashtra 400071, India Lat 19.045496° Long 72.889675° Wednesday, 14/01/2026 12:42 PM GMT +05:30

ABOUT US

Vivekanand Education Society's Institute of Technology (VESIT), established in 1984, is one of the most premium institutions for engineering affiliated to the University of Mumbai. VESIT has been practicing innovative teaching practices to attain its mission of being committed to excellence in technological education, research and training, use of contemporary participant-centric pedagogies and teaching methods and establishing a presence in emerging segments of technological education.

The department of Computer Engineering is committed towards imparting quality education and developing future technocrats in the stream of computers. It is focussed towards its mission of facilitating student's progress by providing a strong foundation in fundamental concepts, critical thinking skills as well as inculcating core values of professionalism and ethics.

VISION

- To establish a center of excellence in computing by empowering students with advanced technological skills for fostering innovation, research, and societal impact.

MISSION

- To cultivate a teaching learning environment that unites theory with computing skills, empowering students to adapt to evolving technologies.
- To strengthen core computing knowledge by fostering research, innovation, and entrepreneurship through multi-disciplinary learning.
- To prepare competent professionals with industry-ready skills, encouraging social awareness, sustainable development, and a commitment to lifelong learning.

VIVEKANAND EDUCATION SOCIETY'S INSTITUTE OF TECHNOLOGY

AUTONOMOUS INSTITUTE AFFILIATED TO UNIVERSITY OF MUMBAI, APPROVED BY AICTE & ACCREDITED BY ASI, ISO 9001:2015

CHIEF PATRONS

- Shri. B. L. Bhatnagar, Managing Trustee, VESIT
- Shri. Suresh Malkani, President, VES
- Shri. Rajesh Gehani, Secretary, VES
- Shri. Dr. Prakash Lulla, Treasurer, VESIT
- Shri. Vijay Tejraj, Trustee, VESIT, CEO Bynocs
- Dr. (Mrs.) J. M. Nair, Principal, VESIT
- Dr. (Mrs.) M. Vijayalakshmi, Vice Principal, VESIT

CONVENOR

- Dr. Nupur Giri, Head of the Department, CMPN, VESIT

ADVISORY COMMITTEE

- Dr. Sharmila Sengupta, Professor, CMPN, VESIT
- Dr. Sujata Khedkar, Associate Professor, CMPN, VESIT
- Dr. M. D. Patel, Associate Professor, CMPN, VESIT
- Dr. Daashrath Mane, Associate Professor, CMPN, VESIT
- Dr. Prashant Kanade, Assistant Professor, CMPN, VESIT
- Dr. Rohini Temkar, Assistant Professor, CMPN, VESIT

Coursera has confirmed the identity of this individual and their participation in the course.

This certificate attests to the learner's completion of an online course / project delivered via Coursera. It does not constitute formal enrollment at any university or entity and does not itself grant academic credit, grades, or a degree. Institutions or organizations may, at their discretion, recognize this learning toward their own programs or credentials.

			 The image shows a Course Certificate from IBM, issued on Aug 24, 2025, to RUPALI SONI. The certificate states that she has successfully completed the course 'Python for Data Science, AI & Development', an online non-credit course authorized by IBM and offered through Coursera. The certificate is signed by Joseph Santarcangelo, Senior Data Scientist at IBM. A Coursera seal is visible on the right side of the certificate. A verification link is provided at the bottom right: https://coursera.org/verify/1DP9VEIQ5RWK. The text below the link states: 'Coursera has confirmed the identity of this individual and their participation in the course.'
	1.5	Research Activities	
	1.5.1	Research Papers Published (Total: 6):	• The paper titled “Ethical challenges in community-based tuberculosis screening and surveillance”, was authored by Sameer Rastogi, Nupur Giri, Swapnil Bhanudas Kadam, Mandeep Kaur, Khusanov Saidbek, Mukhayya Djumaniyazova, Bekchanova Kuvanch Roximovna, Indian Journal of Tuberculosis, ISSN : 0019-5707, February 2026 (Scopus Indexed Journal). • The paper titled “Community empowerment through technology-enabled health education for tuberculosis control”, was authored by Uma Bhardwaj, Nupur Giri, Vasant Devkar, Dr Arun Khatri, Khursanov Asliddin, Shoiria Rakhimova, Nilufar Niyazova, in the Indian Journal of Tuberculosis, ISSN: 0019-5707, March 2026 is a Scopus Indexed Journal • The paper titled “Balancing Public Health Priorities and Individual Rights in Community Tuberculosis Control” was authored by Dr. Nupur Giri, Girish Abhyankar,

Vivekanand Education Society's Institute of Technology

Approved by AICTE & Affiliated to University of Mumbai

			Gauri Tamhankar, Ved Vrat Verma, Tolib Rajabov, Kurbaniozova Rano, and Taxirbek Salayev. It was published in the Indian Journal of Tuberculosis (ISSN: 0019-5707) in February 2026. This is an international publication, and the journal is Scopus-indexed. • The book chapter titled “Agati - A Personalized Women’s Safety and Empowerment” was authored by Dhruv Aswani, Aman Sande, Praful Pradhan, Rajveer Tolani & Pallavi Saindane. It was presented at ICT Analysis and Applications in nov 2025. • The paper titled “Crude Oil and Carbon Black Price Forecasting: A Hybrid Deep Learning and Boosting-Based Approach” was authored by Yugchhaya Galphat, Dipesh Aptel, Advay Somani, Path Udole, and Parath Takale. It was presented at the 6th Biennial International Conference on Nascent Technologies in Engineering (ICNTE), held from 16/01/26 to 17/01/26. • The paper titled “MindCare: AI-Powered Mental Wellness Companion” was authored by Yugchhaya Galphat, Sujal Pathrabe, Soham Chaudhary, Ayush Duseja, and Mayank Wankhede. It was presented at the 6th Biennial International Conference on Nascent Technologies in Engineering (ICNTE), held from 16/01/26 to 17/01/26.

Application Status

Vivekanand Education Society's Institute of Technology

Approved by AICTE & Affiliated to University of Mumbai

- Dr. Prashant Kanade contributed academically at VCET Vasai in the field of Information Technology.
- Dr. Sharmila Sengupta served as a BOS member at SIES Nerul and also worked as a reviewer for postgraduate academic activities at SIES.
- Dr. Gresha S. Bhatia served as a USSC selection committee member at Terna CoE, worked as a RAC member and expert at Pillai College of Engineering, and contributed as a subject expert at Symbiosis, Pune.
- Dr. Sujata Khedkar served as a RAC member at RAIT and worked as an auditor at Dwarkadas J. Sanghvi College of Engineering as well as SIES Nerul in the domains of AIML and Computer Engineering.
- Dr. Priya R. L served as an External Research Advisory Committee (RAC) member at Presidency University, Bengaluru, and also contributed to curriculum and syllabus revision at VIT, Vellore in Computer Science and Bioinformatics specialization.

Other faculty members also contributed as committee members, subject experts, auditors, and reviewers in various academic forums across reputed institutions.

2.1.2

Placement Record

1.1 Placements Summary:

- ★ The process of placement started in the third week of July 2025 with dream companies like JP Morgan Chase & Co.-CFG, Institutional Shareholder Services (ISS), Nomura, Dolat Capital, Carwale, Nomura, IVP, Quantiphi, etc., followed by non-dream recruiters such as Capgemini and Exponentia AI.
- ★ Like every year, this year's students have also performed extremely well. Students participated in a coding contest organized by JP Morgan & Chase - Code for Good (CFG), Nomura-KakushIN, and a few students have received placement opportunities through these contests.
- ★ Some students have got full-time placement offers through internships.

1.2 Highlights

- ★ 60% of eligible and interested students have been placed as of today.
- ★ 36 companies have visited the campus to date for the Computer Engineering stream.
- ★ The highest salary offered is 14 Lakhs/Annum.
- ★ The average salary offered is 6 Lakhs/Annum
- ★ 53% of students have a dream job offer.

1.3 Hackathon Winners

- ★ JP Morgan and Chase

Student: Jennifer Cheriyan -
D17C

Vivekanand Education Society's Institute of Technology

Approved by AICTE & Affiliated to University of Mumbai

Event: Code for Good 2025
Hackathon by JPMorgan Chase
& Co.

Location: JPMC Office,
Goregaon, Mumbai

Dates: June 7–8, 2025

Jennifer Cheriyan represented VESIT at the prestigious Code for Good 2025 Hackathon organized by JPMorgan Chase. Her team, Team 22, developed a tech solution for the NGO Vidyoday (focused on rural education) using Next.js, Firebase, and Flask.

The team was declared Winner for the Vidyoday Problem Statement and received **Apple iPads and Goodies** as prizes.

Student: Veda Patki -

Event: Code for Good 2025 Hackathon
by JPMorgan Chase & Co.

Location: JPMC Office, Goregaon,
Mumbai

Dates: June 7–8, 2025

Veda Patki represented VESIT at the prestigious Code for Good 2025 Hackathon organized by JPMorgan Chase. Her team collaborated with the NGO SpaceCE India Foundation, which focuses on early childhood education. The team developed a digital platform enabling parents to monitor their child's developmental milestones, access multilingual educational content, and track progress through simplified visuals.

The solution was built using MERN + Flask integration, emphasizing inclusivity and user-friendly design.

The team was declared **1st Position (Top Winners)** for their innovative and user-centric solution to the SpacECE challenge and received winning goodies along with recognition from JPMC and the NGO heads.

Veda received an Internship at JPMC with a Stipend of 80,000.

★ Nomura

Name: Darshan Khapekar - D17B
Company: Nomura
Location: Powai, Mumbai
Status: Dream
Job Offered: Yes (Pre-Placement Offer)
CTC: ₹13.66 LPA
Event: Nomura KakushIN 9.0
Hackathon
Venue: Nomura Office, Powai
Dates: July 4–5, 2025

Darshan Khapekar represented VESIT at Nomura's flagship innovation hackathon, KakushIN 9.0, which focused on building GenAI-driven real-world solutions. The event featured a 24-hour coding and presentation round at the Nomura Powai office.

His team secured the 2nd Runner-up position, receiving **Bose Headphones** as a prize. Based on his performance, Darshan was offered a Pre-Placement Offer (PPO) from Nomura with a CTC of **₹13.66 LPA**.

1.4 Placement offer through hackathon:

Sr. No.	Contest Name/ Company	Number of job Offers	CTC {LPA}
1	Nomura KakushIn	1	13.66
	Total	1	

Vivekanand Education Society's Institute of Technology

& Social Entrepreneurship

About the Speaker:

PARAG SHAH is a technologist with diverse experiences from business software to security to consumer internet products and services, as well as humanitarian and human development initiatives in a professional lifetime of 23+ years. He has been associated for 25+ years in various capacities, ranging from volunteering to project lead, also as a chapter, regional and national leadership. He has launched several social entrepreneurship initiatives ranging from software for good, mentorship for rising graduates, to fundraising for child education & healthcare, as well as growing Miyawaki Forests to fight climate change, in addition to facilitating and teaching personal transformation programs with the Art of Living Foundation (AoL), International Association for Human Values (IAHV) and Ved Vigyaan Mahavidyapeeth (VVM).

Guest Speaker

Parag Shah

**Sr. Software Architect,
Apple Inc**

2001 Alumnus - VESIT

About the Session:

- Learn about how to think about problems. (First Principles)
- How are products are built (Data-driven approaches, Polish)
- Expand your vision (is it just technology?)
- What will be your legacy? (Think it through)
- Where do you want to be ? (in the next 5, 10, 15 years)

2.2.1.3

A Skill Enhancement Lecture on “Agile Project Management and Data Science” was conducted by **Mr. Shaikh Mohammad Salman**, Program & Project Manager, Jio Platforms Limited, on **15th April 2026**, for our **Third-Year (TE)** students to provide industry perspectives on integrated project workflows.

2.2.2

Entrepreneurship in Practice (Winter Internship 2025–26)

The *Entrepreneurship in Practice (Winter Internship 2025–26)* was an initiative organized by CodeCell++ Tinkerers in collaboration with Prakhar Innovations under the Department of Computer Engineering, VESIT. The

program aimed to bridge the gap between theoretical learning and real-world startup execution.

- **Total Duration:** ~30 Hours
 - **Workshop Series:** 20 Hours
 - **Internship Phase:** 8 Weeks

Program Structure

The initiative was conducted in **two major phases**:

1. Workshop Series – “A Tech Entrepreneur’s Toolkit”

Conducted through four sessions:

- Prompt to Product: AI-driven idea generation using tools like Perplexity, Notion AI, and Figma
- GitHub Copilot: AI-assisted coding and productivity enhancement
- Ideation & Market Strategy: Startup thinking, validation, and business models
- MVP Building & Funding: Product development, iteration, and funding insights

These sessions focused on AI-first product thinking, rapid prototyping, and startup methodologies.

2. Internship Phase (Buildathon Execution)

- **Duration:** 1st December 2025 – 31st January 2026
- Students worked in teams on real-world problem statements

Structure by Year:

- TE & BE Students: Worked on faculty-assigned problem statements
- SE Students:
 - Attended training workshops
 - Then worked on assigned projects

Project Outcomes

- 11 projects completed by TE & BE students
- 7 projects completed by SE students
- **Total Projects: 18**

Projects spanned domains such as AI & LLM applications, healthcare systems, smart automation, EdTech tools, and IoT-based solutions.

Build-a-thon '26 (Final Evaluation Stage)

The final phase of the internship was the Build-a-thon '26, which included:

- Poster presentation competition
- Evaluation of project deliverables
- Feedback from mentors and judges

This stage provided a platform for showcasing innovation, enhancing presentation skills, and receiving constructive feedback.

Participation Details

- Students: 111
- Mentors/Speakers: 5

Key Session Highlights

- **Session 1: Prompt to Product (2 Dec 2025):** Focused on AI-assisted product design using tools like Perplexity AI, Notion AI, and Figma, enabling idea validation and wireframing.
- **Session 2: GitHub Copilot (4 Dec 2025):** Covered AI-assisted coding and modern development workflows for faster MVP building.
- **Session 3: Ideation & Market Strategy (13 Jan 2026):** Emphasized problem-first thinking, validation, and startup strategy through real-world insights.

- **Session 4: MVP & Funding (19 Jan 2026):** Focused on MVP development, iteration, and early-stage funding awareness.

Key Outcomes and Benefits

- Enhanced entrepreneurial mindset and startup awareness
- Hands-on experience in product development and validation
- Improved technical, design, and problem-solving skills
- Exposure to AI tools and modern development practices
- Strengthened teamwork, communication, and pitching abilities

Projects Completed During Internship:

Sr No.	NAME OF THE MENTOR	PROJECT NAME
1	Sunita Suralkar	Automated Report Generation Using Domain-specific Large Language Models (LLMs)
2	Dr Sujata Khedkar	Doc to Database App using LLM
3	Dr Sujata Khedkar	Medical Device Data Collection & Monitoring Application for Pathology Labs
4	Dr. Indu Dokare	Multimodal BCI wheelchair using EEG and voice commands
5	Dr. Priya R. L	NAAC based Report Generation using Multi-Agent LLM System
6	Dr Sujata Khedkar	RePrice AI
7	Vidya Sachin Zope	Skeleton-Based Human Action Recognition for Surveillance Applications
8	Richard Joseph	Smart Question Paper Digitization System
9	Dr Sujata Khedkar	Social Media Content Summarizer
10	Dr Prashant Kanade	Water Demand Forecasting System
11	Abha Tewari	Real-Time Emotion Glimpse Board
12	Vivan Tulsi, Veda Patki	JevleKa – Smart Canteen Ordering System
13	Riddhi Motwani, Sahil Tanwani	Social Media Manager
14	Jaee Sakharkar,	GuardianSlider: Smart Safety Keychain & App

Vivekanand Education Society's Institute of Technology

Approved by AICTE & Affiliated to University of Mumbai

	Gaurang Gade	
15	Amogh More, Aanchal Gupta	SignAge
16	Manish Raje, Om Mhatre	Automated Climate Control System
17	Taha Sayyed, Vedant Mhatre	StudySync
18	Sanskriti Ukarande, Priyanka Ochaney	Real-Time GPS-Based Train Tracking and Platform Prediction System

Outcomes and Benefits of the Internship:

In the later stage of the internship, a Buildathon was organized, where a poster presentation competition was conducted. This event served as a platform to evaluate and showcase the outcomes and deliverables of the internship. It also encouraged innovation, creativity, and effective communication among students while providing valuable feedback from judges.

2.2.2.1 Workshop Series: A Tech Entrepreneur's Toolkit (2025–26) Session 1: Innovators School – Prompt to Product

Date: 02 December 2025 | Mode: Online | Duration: 2.5 Hours

Guest Speaker: Manish Raje & SAYYED TAHA (Tech Support Members, Prakhar Innovations at Computer Engineering)

The session “Innovators School – Prompt to Product” was conducted as the first component of the Workshop Series: A Tech Entrepreneur's Toolkit. The objective of

the session was to introduce students to AI-first product thinking and enable them to transform innovative ideas into structured product concepts using modern AI tools.

The session was conducted by **Mr. Manish Raje** and **Mr. Taha Sayyed** from Prakhar Innovations. It began with an introduction to the concept of idea-to-product thinking, where students were encouraged to focus on identifying real-world problems and designing practical digital solutions. The speakers emphasized the importance of problem validation, user understanding, and feasibility analysis before moving into development.

Participants were introduced to the concept of prompt-driven innovation, where structured prompts are used to generate product ideas, feature lists, user flows, and architecture suggestions using AI tools. The session highlighted how AI can act as a co-creator, helping students accelerate the early stages of product development.

The hands-on segment included practical exposure to multiple AI tools:

- **Perplexity AI** for market research, trend analysis, and competitor insights
- **Notion AI** for organizing requirements, documentation, and product planning
- **Figma** for UI wireframing and interface design
- Additional AI-assisted platforms for system design and workflow visualization.

Students actively worked on their own product ideas during the session. They learned how to:

- Define a clear problem statement and target audience
- Break down ideas into functional modules and features
- Create product workflows and basic system architecture
- Develop wireframes for key screens
- Prepare early-stage product concepts suitable for MVP development

The session encouraged experimentation, rapid execution, and design thinking. Participants explored how modern startup teams use AI tools to reduce development time and move quickly from concept to prototype.

A total of 85+ students actively participated in the session. The high level of engagement was reflected through interactive discussions, idea exploration, and hands-on activities. Some participants were also recognized for their performance in areas such as research, design quality, and product thinking.

Overall, the session successfully provided students with a practical understanding of AI-driven product development, rapid prototyping, and innovation workflows. It helped build confidence in transforming ideas into structured, scalable digital solutions and set a strong foundation for the remaining components of the workshop series.

Session 1: Innovators School – Prompt to Product

2.2.2.2 Workshop Series2 : Innovation Using GitHub Copilot

Date: 04 December 2025 | Mode: Online | Duration: 2.5 Hours

Speaker: Mr. Harshavardhan Khamkar – Jr. Technical Manager, CodeCell VESIT

The session “Innovation Using GitHub Copilot” was conducted as part of Component I of the Workshop Series: A Tech Entrepreneur’s Toolkit. The objective of the session was to introduce students to AI-assisted software development and demonstrate how GitHub Copilot can be effectively used as a primary development assistant to improve coding efficiency and productivity.

The session began with an introduction to GitHub Copilot and its role in modern software development. The speaker explained how AI-powered coding tools are transforming the development process by reducing manual effort, minimizing errors, and accelerating the journey from idea to implementation. The importance of

AI-assisted development in startup environments and MVP creation was also highlighted.

Participants were guided through the key capabilities of GitHub Copilot, including:

- Automatic code generation based on natural language comments
- Intelligent code suggestions and auto-completion
- Debugging support and error resolution
- Code refactoring and optimization
- Generation of documentation and boilerplate code

The speaker demonstrated how Copilot can assist across different stages of the software development lifecycle, such as writing functions, building modules, improving code quality, and speeding up repetitive tasks. Real-time examples were shown to illustrate how developers can use prompts and contextual inputs to generate efficient and functional code.

A guided case study was also conducted to provide participants with practical exposure. Students observed how Copilot can be used to build application features, optimize logic, and enhance development workflows. The session emphasized best practices for using AI responsibly, including reviewing generated code, ensuring correctness, and maintaining coding standards.

The workshop also focused on productivity enhancement for startups and early-stage product teams. Students learned how AI coding assistants can significantly reduce development time, enabling faster prototyping and quicker MVP delivery.

A total of 68 students actively participated in the session. The interactive demonstrations and practical insights helped participants understand how to integrate AI tools into their daily development practices.

Overall, the session successfully enhanced students' understanding of AI-driven coding, improved their awareness of modern development workflows, and equipped them with the skills to use GitHub Copilot for faster, smarter, and more efficient software development.

Session 2: Innovation Using GitHub Copilot

The screenshot shows a Google Meet window with the URL `meet.google.com/uow-pibr-xuw?pli=1&authuser=3`. The presenter, HARSHAVARDHAN KHAMKAR, is displaying a GitHub repository named `uow-pibr-xuw`. The repository's README file is visible, showing a search bar and a list of files. The sidebar on the right lists participants: VEDA PATKI, SAHIL MIRCHANDANI, POORVAJA JOSHI, and 43 others. The bottom status bar shows the time as 11:44 AM and the meeting ID as uow-pibr-xuw.

The screenshot shows a Google Meet window with the URL `meet.google.com/uow-pibr-xuw?pli=1&authuser=3`. The presenter, HARSHAVARDHAN KHAMKAR, is displaying a GitHub repository named `uow-pibr-xuw`. The repository's README file is visible, showing a search bar and a list of files. The sidebar on the right lists participants: VEDA PATKI, SAHIL MIRCHANDANI, POORVAJA JOSHI, and 41 others. The bottom status bar shows the time as 11:41 AM and the meeting ID as uow-pibr-xuw.

2.2.2.3 The Startup Interaction & Learning Series - Cohort I: Ideation & Market Strategy

Date: 13 January 2026 | Mode: Online | Duration: 2 Hours

Guest Speaker: Mr. Paawan Matani – Founder & CEO, FAD

Point To be Addressed	Description
Date(s) of the Event	13/01/2026
Duration Of the Event (Number of hours)	2 hours
Name and details of the Coordinator	Prof. Mrs. Lifna C. S., Prof. Mrs. Pallavi Saindane, Prof. Mrs. Yugchhaya Galpat, Prakhar Innovations Students Team
Name and details of the Speaker	Paawan Matani (Founder & CEO at FAD)
About The Program	The Startup Interaction & Learning Series - Cohort I was an interactive online session organized by the Department of Computer Engineering , Vivekanand Education Society's Institute of Technology (VESIT), in collaboration with Prakhar Innovations and CodeCell++

Vivekanand Education Society's Institute of Technology

Approved by AICTE & Affiliated to University of Mumbai

		Tinkerers. The session focused on Ideation and Market Strategy and aimed to provide early exposure to startup thinking for second-year engineering students through real-world experiences shared by a student entrepreneur.
	Program Type:	Startup Interaction / Expert Talk
	Program Theme:	Ideation and Market Strategy
	Objective Of The Program	The objective of the program was to introduce students to the fundamentals of startup ideation, problem identification, market validation, and business strategy through practical insights from a real founder's journey. The session aimed to bridge the gap between theoretical understanding and real-world startup execution, while encouraging students to think critically, ask questions, and explore entrepreneurship alongside academics.

Vivekanand Education Society's Institute of Technology

Approved by AICTE & Affiliated to University of Mumbai

		Outcomes of the event (In terms of learning /Skill / Knowledge obtained)	The session enabled students to gain clarity on how startup ideas originate from real-life problems and how they evolve through market validation and user feedback. Participants developed a better understanding of problem-first thinking, early-stage business models, competitor analysis, and go-to-market strategies. The interactive nature of the session enhanced students' communication skills, confidence in pitching ideas, and overall entrepreneurial mindset.
		Total participation	Number of attendees: 32 Students
		Flyer of the Session

Startup Interaction & Learning Series Cohort I - Ideation & Market Strategy

About the Speaker:

Paawan Matani, Founder & CEO of **FAD**, a thrifting marketplace startup, and Secretary of Prakhar Innovations. He is also the Winner of the Indian College Startup Competition 2025 (CMPN), and his **startup** is **incubated** and backed by the **HABIT Foundation**. Through his journey, he focuses on building market-driven products and turning ideas into scalable solutions.

Guest Speaker
Mr. Paawan Matani
Founder and CEO of FAD

About the Session:

A walkthrough of startup decisions, learnings, and mistakes.

- Idea to Startup (FAD Journey)
- Problem-First Thinking & Validation
- Early Users, Business Model & Go-To-Market
- Founder Mistakes, Learnings & Q&A

13th January, 2026
5.00 to 7.00 PM
Google Meet

**Open to all S.E. Students &
Mandatory for Internship (Buildathon) participants**

Detailed Report

The *Startup Interaction & Learning Series - Cohort I* was conducted on **13th January 2026**, from **5:00 PM to 7:00 PM**, in **online mode via Google Meet**, under the **Department of Computer Engineering, Vivekanand Education Society's Institute of Technology (VESIT)**. The session was organized as part of the **exclusive Winter Internship (Buildathon) Program** for Computer Engineering students, in collaboration with **Prakhar Innovations** and **CodeCell++ Tinkerers**, and in association with **VESIT IIC and IQAC**.

The session commenced with a formal welcome and introduction by the coordinator **Ms. Sanskruti Ukarande**, (PR Manager at Prakhar Innovations) who introduced the speaker, outlined the agenda of the session, emphasized the importance of active participation, open discussion, and questioning, and informed the students about the special opportunity of a **direct internship interview at FAD** for the most attentive and interactive participant.

The speaker for the session was **Mr. Paawan Matani**, Founder and CEO of FAD, a thrifting marketplace startup. He is a **third-year Computer Engineering student at VESIT (CMPN)** and the **Winner of the Indian College Startup Competition 2025**. His startup is **incubated and backed by the HABIT Foundation**. The speaker was introduced as a student entrepreneur from the same department, making the session highly relatable and inspiring for junior students.

The session followed an interactive Q&A-based format. Mr. Matani began by introducing himself and sharing his entrepreneurial journey, explaining how the idea for FAD originated, the inspiration behind starting alone, and the significance of the startup's name. He discussed how his early expectations differed from real-world startup challenges and how he adapted to these situations.

The discussion then moved into ideation and market strategy, where the speaker emphasized the importance of *problem-first thinking* over idea-first approaches. He explained how to evaluate whether a problem is worth solving, common mistakes students make during early ideation, and how personal experiences can guide meaningful startup ideas. He also shared insights into identifying the initial problem FAD aimed to solve and how early market assumptions evolved over time.

Further discussions covered market validation, user feedback mechanisms, business model fundamentals, revenue thinking for student projects, and go-to-market strategies. The speaker explained these concepts in simple, layman-friendly language, supported by examples from his own journey. He also spoke about financial stability in startup culture, identifying competitors, managing competition, balancing academics with startup responsibilities, and the role of mentorship and mindset in sustaining motivation.

An interactive activity was conducted mid-session, where students were invited to pitch their startup ideas. Four students **Gunjan Athwani, Rushil Shitut, Sahil Mirchandani, and Muskan Rohra** presented their ideas to the speaker. Mr. Matani provided constructive feedback, addressed their doubts, and offered practical suggestions to improve their ideas. As a recognition of their participation, these students were shortlisted to be featured on the **official LinkedIn page and website of Prakhar Innovations**.

The session witnessed active participation from approximately **32 students**, with **22 students remaining until the conclusion**, indicating strong engagement and interest. The program concluded with a final interaction and closing remarks by the coordinator, who thanked the speaker and participants for making the session informative, engaging, and impactful.

Startup Interaction & Learning Series
Cohort II - MVP Building & Funding Opportunities

About the Speaker:

Minhaj Shaikh, Founder & CEO of FriendsCampus.com, is an education entrepreneur with over 14 years of experience in tutoring and coaching and 6+ years in the EdTech space. He has previously served as Head of Operations at Acadza.com and Alliance Manager & Chief Project Coordinator at STEPApp.ai. Through his journey, he focuses on student-centric education, mentorship-driven growth, and building impactful learning platforms.

About the Session:

A practical, founder-led walkthrough of MVP building and early-stage funding decisions.

- How founders scope, validate, and iterate their MVP
- Presenting an MVP effectively to users and early investors
- Early-stage funding options and how to access them
- Common mistakes in MVP building and fundraising and how to avoid them & Open Q&A

Open to: All **SE & TE** Students

Mandatory for: Build-a-thon Internship Students

Post-session Opportunities: **Mentorship | Internship** for Selects

Guest Speaker
Minhaj Shaikh

Detailed Report

The **Startup Interaction & Learning Series – Cohort II** was conducted on **19th January 2026, from 5:00 PM to 7:00 PM**, in online mode via **Google Meet**, under the Department of Computer Engineering, Vivekanand Education Society's Institute of Technology (VESIT). The session was organized as part of the **Winter Internship (Build-a-thon) Program** for Computer Engineering students, in

collaboration with **Prakhar Innovations** and **CodeCell++ Tinkerers**, and in association with **VESIT IIC and IQAC**.

The session commenced with a formal welcome and introduction by the coordinator **Ms. Riddhi Motwani (OutReach Manager at Prakhar Innovations)**, who introduced the guest speaker, outlined the agenda of the session, and emphasized the importance of **active participation, open discussion, and questioning** throughout the interactive session. Students were informed that the session would provide practical clarity on **MVP building** and **early-stage funding decisions**, directly from a founder's real-world journey.

The speaker for the session was **Mr. Minhaj Shaikh, Founder & CEO of FriendsCampus and an alumnus of VESIT**. With over **14+ years of experience in tutoring and coaching** and **6+ years in the EdTech domain**, he has previously served as **Head of Operations at Acadza.com** and **Alliance Manager & Chief Project Coordinator at STEPApp.ai**. He was introduced as an **education entrepreneur** who has built **student-centric learning platforms** and worked extensively in the startup ecosystem. His journey from a **VESIT student to a startup founder** made the session highly relatable and inspiring for the participants.

The session followed a **structured Q&A-based interactive format**. Mr. Shaikh began by sharing his **personal journey as a VESIT student**, reflecting on his mindset during college and how entrepreneurship was not an immediate goal but gradually evolved through exposure to **real-world educational challenges**. He discussed the shift in thinking that occurred when he began observing **systemic gaps in student mentoring and academic guidance**. He also shared **early career mistakes**, particularly around **over-assumptions and building without validation**, which later shaped his **problem-first approach toward startups**.

The discussion then moved into **founder mindset and entrepreneurial thinking**. The speaker emphasized that **curiosity, problem observation, and execution discipline** are more important than technical brilliance alone. He explained that in early-stage startups, **solving a real-world problem** matters more than building complex technical systems. He encouraged SY and TY students to develop the habit of **questioning everyday inefficiencies** and to focus on **consistent action instead of waiting for a “perfect idea.”**

The core segment of the session revolved around **MVP (Minimum Viable Product) building**. Mr. Shaikh explained that an MVP is the **simplest version of a product that solves a core problem for a specific user group and helps test assumptions**. He addressed common misconceptions, such as believing that MVP means a **low-quality product** or that multiple features must be built before launch. He stressed that the biggest mistake founders make is **overbuilding without testing**. Through practical examples from his EdTech journey, he explained how **validation through real users, pilot testing, surveys, and early feedback** helps refine the product. He also clarified when founders should **stop adding features and begin testing the core solution in the market**.

Further discussions covered **user feedback interpretation, handling negative responses constructively, and iterating based on data rather than emotions**. The speaker emphasized that **negative feedback is not rejection but redirection**. Students were guided on how to validate ideas with minimal resources, including building **landing pages, small experiments, and manual testing models** before investing heavily in development.

The session then transitioned into **early-stage funding and pitching**. Mr. Shaikh explained when founders should **consider funding** and when it is better to **bootstrap**. He highlighted that investors look for **clarity of problem, early**

traction, team commitment, and evidence of validation rather than just innovative ideas. He discussed the importance of **traction over theoretical projections** and shared common mistakes student founders make while pitching, such as **unrealistic revenue assumptions, lack of market understanding, and overemphasis on features instead of value proposition**.

An engaging discussion was held around **balancing academics and entrepreneurship**. The speaker provided practical advice on **time management, maintaining focus, and avoiding burnout**. He emphasized **mentorship** as a key factor in reducing beginner mistakes and accelerating learning in the startup journey.

Throughout the session, students actively participated by asking questions related to **MVP validation, funding readiness, and startup experimentation during college**. The interactive format allowed students to gain clarity on **real-world execution challenges and investor expectations**.

The session witnessed active participation from students of SY and TY Computer Engineering, reflecting strong interest in entrepreneurship and startup building. The program concluded with a final round of interaction and closing remarks by the coordinator, who thanked Mr. Minhaj Shaikh for sharing **practical insights on building impactful, validated startups rather than feature-heavy academic projects**.

Overall, the session provided students with a realistic understanding of **MVP development, funding strategy, and founder mindset**, reinforcing the importance of **problem-solving, validation, disciplined execution, and continuous learning in entrepreneurship**.

List of Projects under Winter Internship

GATE Preparation Bootcamp:

Point To be Addressed	Description
Academic Year	2025-26
Duration	1 week (24th Jan to 25th Jan 26)
Name coordinator	Mrs. Yugchhaya Galphat (Assistant professor Computer Engineering)
Target audience	Second Year and Third year Computer Engineering Students
Total participation :-	Number of Student Participants = 32
Name and details of the speakers	Mr. Aditya Gaikwad Student (M. Tech, IIT Bombay) AIR 12 Gate 2025 Alumni (Batch 2025) Mr. Soham Kelaskar Student (M. Tech, IIT kanpur) AIR 460 Gate 2025 Alumni (Batch 2025)

Gate preparation Bootcamp for Computer Engineering are specialized educational programs organised by Computer Engineering Department VESIT. This program helps students to prepare for the Gate exam in the field of computer science and engineering .

Duration of workshop;-24th Jan to 2th Jan 25**Venue : online mode**

Time: 10:00 am to 12:00 pm

Session Overview and Key Coverage

The bootcamp sessions provided a well-structured approach to GATE preparation, covering essential aspects such as exam pattern, syllabus breakdown, and strategic study planning. The speakers emphasized the importance of strong conceptual understanding, subject-wise prioritization, and consistent practice using previous years' question papers.

Key areas discussed included effective time management, revision strategies, and the role of mock tests in evaluating performance and improving accuracy. The speakers also shared practical tips to avoid common mistakes and maintain consistency throughout the preparation journey.

In addition, valuable insights from the speakers' personal experiences helped students understand real challenges and effective methods to overcome them. An interactive doubt-solving segment further enhanced student engagement and clarified queries related to preparation strategies, resources, and career opportunities after GATE.

Overall, the session ensured comprehensive coverage of both technical concepts and exam-oriented strategies, making it highly beneficial for GATE aspirants.

Session Content The bootcamp sessions focused on delivering a structured and strategic approach to GATE preparation. Key topics covered included understanding the exam pattern, detailed syllabus analysis, and effective study planning. The speakers highlighted the importance of building strong conceptual foundations, prioritizing subjects based on weightage, and practicing previous years' question papers for better performance.

Vivekanand Education Society's Institute of Technology

Approved by AICTE & Affiliated to University of Mumbai

The sessions also addressed essential strategies such as time management, revision techniques, and the effective use of mock tests for self-assessment. Practical guidance was provided on avoiding common mistakes and maintaining consistency throughout the preparation process.

Event Poster:

The poster is for a GATE Preparation Bootcamp. At the top, it features the Vivekanand Education Society's Institute of Technology logo and name, along with accreditation details. Below this is a photograph of the institute's building with the text 'Arise, Awake and Stop not till the goal is reached!'. The main title is 'V-REACH '26 - An Alumni Engagement Initiative', followed by its purpose and the organizing department. The event is a 'GATE Preparation Bootcamp' held on January 24th and 25th, 2026, from 10:00 am to 12:00 pm in an online mode. Two speakers are listed: Mr. Aditya Gaikwad (AIR 12 Gate 2025) and Mr. Soham Kelaskar (AIR 460 Gate 2025). A red 'Register' button is prominently displayed. At the bottom, a list of faculty members and their roles is provided.

Poster for the Event

Detailed Report

The Department of Computer Engineering organized Department Technology Day - Pradarshini'26 on 23rd March 2026. In total, 12 projects were shortlisted from Final year Major Projects including industry and research based collaboration projects. Project groups along with winner groups of various hackathons such as Smart India Hackathon (SIH), EthGlobal, Mastek Deep Blue, and other

inter-collegiate, state and national level hackathons. Also, eleven different project groups showcased their winning projects of various state level and national level hackathons and competitions.

The criteria for shortlisting the projects was on the basis of the internal Project Review I and II marks, the completion of the project and the innovation involved.

The details of the Technology Day is as follows:

Evaluation Methodology:

The experts evaluated the allotted projects through the demonstrations made available through the Exhibition on 3rd Floor. The evaluation parameters for judgment were based on :

- 1) Relevance and Validation of Problem & Solution
- 2) Feasibility of solution (SMART) : (To Check the appropriateness of the proposed solution)
- 3) Applicability of Solution: Application of concept, Relevance to Society, Video Content.

The winners for the Technology Day were determined by the Peer Review Process done by alumni experts.

The Expert Panel stated their views about the evaluated projects. They appreciated the efforts taken by the Department and the Project Team to showcase the skill set of the students while developing their Projects. They also elaborated the need to present these project ideas to related industries and pitch in for Product / Application development / Service Model.

Detailed Report : BuzzPro'26: A Platform for Budding Innovators BuzzPro'26 provided an incredible opportunity for Second-Year and Third Year Computer Engineering students to explore, investigate, and analyze the	

experience of writing a technical paper. This initiative aimed to enhance students' research and analytical skills while encouraging technical excellence.

The event witnessed enthusiastic participation from the entire second-year batch, comprising approximately 360 students. Through a rigorous selection process, 14 groups were shortlisted in the first round. These groups were evaluated based on their research quality, originality, and presentation. After further scrutiny, including external reviewers' feedback and plagiarism analysis, the top 11 teams advanced to the final round. The final round of BuzzPro'26 showcased an impressive display of technical acumen as the selected teams presented their research papers to an esteemed panel of judges. The judging panel for this prestigious event comprised distinguished professionals:

- **Mr. Amit Chhabria**, Software Engineer 2, Forcepoint
- **Ms. Sanika Chavan**, Engineer 2, HashiCorp

The judges provided valuable insights and constructive feedback, guiding students on refining their research methodologies and improving their technical documentation. Their expertise and industry perspective helped students understand the real-world applicability of their research work. BuzzPro'26 successfully ignited a spirit of inquiry and innovation among students, fostering a culture of research and development at VESIT. The event concluded with an appreciation ceremony, where the best papers were recognized for their excellence in research, innovation, and presentation.

The success of BuzzPro'26 stands as a testament to the dedication of students, faculty, and industry professionals who contributed to making this event a remarkable experience. We look forward to witnessing more groundbreaking research from our students in the coming years!

		About The Program	The Computer Engineering Department's CodeCell++ Tinkerers at Vivekanand Education Society's Institute of Technology (VESIT) put together the Syrus Hackathon 2026. Unstop powered the event, and Rezinix AI was the title sponsor. This year's hackathon was called "Agentic AI" and had two tracks: the Rezinix AI Track and the Open Innovation Track. The Rotary Club of Mulund Hills backed the Open Innovation Track, which was in line with the 17 Sustainable Development Goals set by the United Nations.
		Program Type:	Hackathon
		Total participation	Number of Student Participants = 638

Detailed Report

Syrus Hackathon 2026, powered by **Unstop** and presented by our Title Sponsor, **Rezinix AI**, was organised by CodeCell++ Tinkerers from the Computer Engineering Department, VESIT. With generous support from our partners – **GitHub** (Brand Partner), **Rotary Club of Mulund Hills** (Sustainability Partner), **Give My Certificate** (Certificate Partner), **.xyz** (Domain Partner), **InterviewBuddy** and **InterviewCake** (Associate Partners), **The Daily Dough**, Chembur(Food

Partner), and **Archer Lab** – Syrus continues to be a platform that fosters innovation, collaboration, and technical excellence among engineering students.

This year, the hackathon was conducted on 17th and 18th March 2026, with a large number of participants competing across two tracks: **Agentic AI and Open Innovation**. The Agentic AI track, powered by Rezinix AI, featured problem statements centered around real-world applications such as AI-driven automation, onboarding assistance, and intelligent system workflows. The Open Innovation track, supported by the Rotary Club of Mulund Hills, encouraged participants to build solutions aligned with the United Nations' Sustainable Development Goals.

The hackathon was conducted in offline mode over a 24-hour coding window with on-campus mentoring and evaluation, followed by a final podium presentation.

Online Coding and Submission Phase:

This year, Syrus Hackathon 2026 followed a structured, multi-phase selection process inspired by the Smart India Hackathon (SIH) model. Registrations were open from 24th February to 1st March, after which problem statements were allotted to teams on 2nd March. This was followed by an online development phase from 3rd to 14th March, allowing participants to work on their solutions remotely.

The submission deadline for this phase was 15th March, where teams submitted a presentation along with a video demonstration. Based on these submissions, shortlisted teams were announced on 16th March and advanced to the main hackathon held on 17th and 18th March, ensuring a more refined and competitive final round.

Day 1: 17th March 2026

The hackathon commenced with the Opening Ceremony at 8:30 a.m., where participants were welcomed and briefed about the event guidelines and evaluation criteria. The coding round officially began at 9:30 a.m., with teams diving into ideation, development, and structuring their project approaches.

The first mentoring round began at 11:30 a.m., during which participants received valuable guidance and feedback from mentors and judges. Tea was served in between sessions to keep participants energized. Lunch was provided at 1:00 p.m., after which mentoring and development activities continued. Mentors actively

engaged with teams, helping them refine their ideas and improve implementation strategies until 4:30 p.m.

Following this, teams were allowed to continue working on their projects from home. Participants were required to submit an updated presentation along with a video demonstrating their implementation by 12:00 a.m. the same night, ensuring proper documentation and clarity of their solutions.

Day 2: 18th March 2026

The top teams were shortlisted for the final round, with 10 teams selected from the Open Innovation track and 6 teams each from the three problem statements under the Agentic AI track. Participants reassembled for the final phase, where they worked on incorporating the last round of feedback and refining their solutions. The final coding window, along with submissions, concluded at 12:30 p.m., with teams required to submit an updated presentation along with a video demonstration of their project.

Final round evaluations were conducted track-wise:

- Agentic AI Track evaluations were carried out by the Rezinix AI team and were based on the project repository, video demonstration, and presentation.
- Open Innovation Track evaluations were conducted by senior members of the Computer Engineering Department.

Judging Panel:

Rezinix AI Track Judge: Rezinix Team

Open Innovation Track Judges:

Judge 1: Piyush Chugeja

Judge 2: Ajay Iyer

Judge 3: Vedant Pawar

Open Innovation				INR
1	Modern digital ecosystems consist of AI models, APIs, enterprise tools and software systems that typically operate in isolated silos without a unified decision-making layer. This project proposes a multi-agent coordination framework centered around a central reasoning engine (“Brain”) that orchestrates specialized AI agents to collaboratively solve complex tasks. The Brain is responsible for task decomposition, agent selection, conflict resolution and optimal strategy generation. Specialized agents perform domain-specific operations such as planning, data analysis, risk evaluation and execution, while the Brain continuously evaluates their outputs and resolves conflicts between competing decisions.	First	Kaustubh Vilas Nataalkar 9021451921	9000/-

Vivekanand Education Society's Institute of Technology

Approved by AICTE & Affiliated to University of Mumbai

		The system also maintains a shared memory layer using Redis and a vector database like ChromaDB to store context, historical decisions and agent performance. Implemented with FastAPI and agent orchestration frameworks such as LangGraph or AutoGen, the Brain functions as the system's central intelligence, enabling coordinated decision-making and efficient execution across multiple agents, tools and digital services.			
	2	Resilience AI is a smart platform that helps cities and organizations prepare for disasters before they happen. It uses artificial intelligence and real-time data such as weather updates, traffic information, and past disaster records to predict possible risks like floods, earthquakes, or cyclones. The system creates a virtual model of a city and simulates how a disaster might affect different areas, including	Second	Pratik Devang 9867998041	6000/-

Vivekanand Education Society's Institute of Technology

Approved by AICTE & Affiliated to University of Mumbai

			roads, hospitals, and emergency services. By running these simulations, it can show which locations are most vulnerable and how resources like ambulances, shelters, and evacuation routes should be used. This allows authorities to plan better and make faster decisions during emergencies. Instead of reacting after damage occurs, Resilience AI helps people prepare in advance and reduce the impact of disasters. By improving coordination and response planning, the platform can help save lives, protect infrastructure, and make communities more resilient to unexpected events.			
		Best Sustainability Award				INR
		1	Re-Mine AI is an AI-powered platform that identifies electronic waste components and estimates the valuable metals they contain. Using computer vision and live metal market data, users can scan e-waste	First	Aditya Upasani 9284946023	5000/-

Vivekanand Education Society's Institute of Technology

Approved by AICTE & Affiliated to University of Mumbai

			items to instantly detect materials like gold, lithium, and copper and calculate their real-time value. The system then connects users with verified recyclers and enables transparent transactions through blockchain-based green credits, helping formalize e-waste recycling while promoting sustainable resource recovery.			
	2	WasteWise is a software platform that solves two urban problems at once — cities wasting money on inefficient garbage collection, and citizens having no motivation to segregate waste properly. The platform has two sides. The city dashboard collects real-time bin fill-level data and uses an AI routing engine to automatically generate the shortest, smartest truck routes — so drivers only visit bins that actually need emptying. This cuts fuel costs, saves	Second	Sayali Yewale 9967320683	5000/-	

Vivekanand Education Society's Institute of Technology

Approved by AICTE & Affiliated to University of Mumbai

time, and reduces carbon emissions.

The citizen app rewards households with redeemable points every time they correctly segregate their waste. These points convert into discounts at local shops, giving people a real reason to participate.

Both sides feed each other — better citizen behavior means cleaner data, which means smarter routes, which saves the city money, which funds better rewards. This self-reinforcing loop keeps improving without external funding.

Problem Statements

Agentic AI track

Participants in the Rezinix AI track were assigned one of three advanced Agentic AI problem statements. Within their selected problem, they were expected to design and develop an intelligent, autonomous system capable of solving complex real-world challenges with minimal human intervention. This approach ensured deep technical focus while encouraging innovation, scalability, and practical applicability. Each project was evaluated based on agent intelligence, system design, solution effectiveness, and real-world impact.

Categories:

- AI-Driven 2D to 3D Jewelry Generation with Real-Time Customization
- Autonomous Incident-to-Fix Engineering Agent
- Autonomous Developer Onboarding Agent

Open Innovation Track

In alignment with the [United Nations' 17 Sustainable Development Goals](#)

The Open Innovation track empowered participants to dive into any domain of their choice, encouraging them to explore the limitless potential of emerging technologies such as Web 2.0, Web 3.0, and GenAI.

- **Open Domain Exploration:** Participants were free to design solutions in any area, from sustainability to smart systems, health tech to education.
- **SDG Alignment:** Every solution was expected to align with *at least two* of the 17 Sustainable Development Goals (SDGs) outlined by the United Nations, promoting socially impactful innovation.
- **Celebration of Creativity:** Originality and relevance were at the heart of evaluation—projects that brought fresh perspectives or tackled overlooked issues were especially appreciated.

Google Cloud Study Jams 2025-26

Participant Enrolment Form is Here

Introduction:

The Google Cloud Study Jam was an exciting, beginner-friendly, hands-on workshop organized by GDG VESIT, CodeCell++ Tinkerers of the Computer Engineering Department at VESIT. This online workshop, classified under the theme of IPR/R&D and Innovation, was designed to introduce participants to the world of cloud computing using the Google Cloud Platform (GCP). The program was a one-month event, running from the 1st to the 31st of October 2025, during the fourth quarter of the 2025-2026 academic year. Specific instructions mandated that participants must use a personal email ID only, and this email must not have been previously logged into Google Cloud Skills Boost to ensure successful registration and access.

Flutter & Firebase Workshop

Point To be Addressed	Description
Date(s) of the Event	23 December 2025

Vivekanand Education Society's Institute of Technology

Approved by AICTE & Affiliated to University of Mumbai

Duration Of the Event (Number Of hours)	2
Name and details of the Speaker	Abhishek Doshi Google Developer Expert
Name and details of the Co-ordinator	Prof. Richard Joseph
About The Program	The Flutter & Firebase Workshop was a comprehensive 2-hour hands-on training session conducted by Mr. Abhishek Doshi, a Google Developer Expert in Dart, Flutter, and Firebase with over 7 years of industry experience.
Program Theme:	IPR/R&D and Innovation
Total participation :-	Number of Student Participants = 150
The Flutter & Firebase Workshop, organized by the Google Developer Group VESIT in association with CodeCell++ Tinkerers of the Computer Department, was conducted on December 23, 2025. Led by Mr. Abhishek Doshi, a Google Developer Expert in Dart, Flutter, and Firebase with over 7 years of industry experience, the workshop focused on building cross-platform applications using modern technologies. Participants gained hands-on experience with Flutter's widget-based architecture, Dart programming, and integration of Firebase services such as Authentication and Firestore. The session also introduced industry-standard development practices, enabling students to build scalable and efficient applications. Overall, the workshop successfully enhanced participants' technical skills and prepared them for real-world mobile app development. Session Poster :

completed by January 14 and the final pitching round judged by alumni Vedant Pawar (Tekkers AI), Piyush Chugeja (Barclays), and Sadhak Kumar (ISS). Participants gained hands-on experience with technologies like Flutter and Gemma, enhanced their problem-solving and teamwork skills, and were exposed to real-world development practices. The hackathon successfully promoted innovation, collaboration, and practical learning, making it a valuable experience aligned with the institute's goal of nurturing industry-ready professionals.

Problem Statement

Candidates feel anxious and underprepared during technical interviews despite having strong skills.

Interview preparation platforms ask generic questions that don't match real company interviews.

Current systems ignore communication skills, confidence and emotional cues during interviews.

Candidates receive vague scores without actionable insights on how to improve.

Proposed Solution

INTERVIEW PREP

An AI-powered platform conducts a realistic technical interview using voice, video, and coding, then delivers clear, personalized feedback to the candidate.

- Simulates real technical interviews with AI-driven question flow
- Personalized interviews based on role, company, and difficulty level
- Multi-modal evaluation using voice, video, and live coding
- Adaptive follow-up questions based on candidate responses
- Clear, actionable feedback with strengths, weaknesses, and next steps

Participants: Vedant Pawar, Pankaj Gupta, Isha Palkar, 10 VEDA PATKI, Piyush Chugeja, 21 others, sadhak kumar

SHREYA NIPUNGE (Presenting)

Participants: SHREYA NIPUNGE, VAISHNAVI AVHAD, sadhak kumar, SHREYA NIPUNGE, GDG CodeCell C., NIKHIL DEVADOL, Saniya Kadam, 14 others, Pankaj Gupta

Generated Outputs

Okay, I can describe that visual for you.

OVERVIEW
This is a graph. It illustrates the hysteresis loop, representing the relationship between magnetic field strength (H) and magnetic flux density (B) in a ferromagnetic material.

STRUCTURE
The graph has two axes: a vertical axis and a horizontal axis.

2.3.5	Technical session on “On-Device AI with Gemma 3n & PaliGemma 2” The On-Device AI with Gemma 3n & PaliGemma 2 workshop, organized by the Google Developer Group VESIT in collaboration with CodeCell++, VESIT IQAC, and VESIT IIC, was conducted on January 6, 2026. Led by Mr. Nitin Tiwari, a Google Developer Expert in Machine Learning and Lead Data Scientist at Zelar, the session introduced participants to advanced Vision-Language Models and Google’s open-source AI architectures for on-device deployment. Students gained hands-on experience in implementing applications such as image captioning, object detection, and OCR using Gemma 3n and PaliGemma 2 models, while also learning to build efficient, low-latency, and privacy-preserving AI solutions for edge devices. The workshop successfully enhanced participants’ understanding of modern AI technologies and provided valuable industry insights, equipping them with relevant skills for emerging trends in edge AI and computer vision.

On-Device AI with Gemma 3n & PaliGemma 2

Nitin Tiwari

- Google Developer Expert in Machine Learning
- Lead Data Scientist at Zelar
- Over 4 years of experience in AI, ML and Computer Vision.

Session Outline

- Introduction to Vision-Language Models and Google's open VLMs
- Understanding PaliGemma 2 & Gemma 3n architectures
- Hands-on demos: image captioning, object detection & OCR

 **Date:**
6th January 2026

Project Innovations / Competitions [Link](#)

2.4.1 Name of the Event: Project Deep Blue Season 11

Event Organized by: Mastek

Place (Venue): Mastek (Final Presentation Round) / Online (Preliminary Rounds)

Date of Event: 2026

Award/Achievement: First Runner-Up (Rs. 75,000/-)

Competition Level: National

Title of the Project / Seminar / Workshop / Activity: GESPY – Multimodal AI System for Real-Time Sign Language Translation for the Hearing-Impaired

Team Members: Ananya Parthasarathy, Simran Karamchandani, Srushti Poriwade

Mentor : Dr. Sujata Khedkar

Vivekanand Education Society's Institute of Technology

Approved by AICTE & Affiliated to University of Mumbai

2.4.2 Name of the Event: Smart India Hackathon 2025

Event Organized by: Ministry of Education's Innovation Cell (MIC) in collaboration with the All India Council for Technical Education (AICTE)

Place (Venue): SRM Institute of Science and Technology Delhi NCR Campus

Date of Event: 08-12-2025

Award/Achievement: 1st Prize and cash prize of 1,50,000

Competition Level: National

Title of the Project : GramLink

Team Members: Darshan Khapekar D17B, Manas Mahendra Patil -D12B, Alfiya Siddique D12B,,Shravani Rasam,Pranav Pol,Aadil Shah D17C,,Manas Patil D12B

Mentor: Prof. Pallavi Saindane, Dr. Rohini Temkar

Vivekanand Education Society's Institute of Technology

Approved by AICTE & Affiliated to University of Mumbai

2.4.3 Name of the Event: MumbaiHacks

Event Organized by: Tech Entrepreneurs Association Of Mumbai (TEAM)

Place (Venue): NESCO Exhibition Center, Mumbai

Date of Event: 28-11-2025

Award/Achievement: Winner- Misinformation Track (cash prize: 150000)

Competition Level: National

Title of the Project / Seminar / Workshop / Activity: Padhai Check- Agentic AI based Misinformation Detection Platform

Team Members: Sejal Sunil Chaudhari-D12B, Supriya Nayak- D12B, Shambhavi Patil- D12B, Akritee Singh- D12B

2.4.4 Name of the Event: Mumbai Hacks 2025

Event Organized by: TEAM Mumbai

Place (Venue): Bombay Exhibition Center, NESCO, Goregaon

Date of Event: 28-11-2025

Award/Achievement: Winner - Fintech and Prize of 250000 (2.5 lakhs)

Competition Level: National

Title of the Project / Seminar / Workshop / Activity: MoneyMitra - AI
powered Finance Assistant

Team Members: Darshan Khapekar -D17B, Shravani Rasam - D20A, Aadil
Shah - D17C, Alfiya Siddique - D12B

2.4.5 Name of the Event: Hackquinox 2.0

Event Organized by: Fr. Conceicao Rodrigues Institute of Technology
(FCRIT)

Place (Venue): Fr. Conceicao Rodrigues Institute of Technology, Juhu Nagar,
Sector 9A, Vashi, Navi Mumbai, Maharashtra 400703

Date of Event: 06-02-2026

Award/Achievement: Position - Winner

Vivekanand Education Society's Institute of Technology

Approved by AICTE & Affiliated to University of Mumbai

Cash prize - 25000

Competition Level: National

Title of the Project / Seminar / Workshop / Activity: SafeLabs

Team Members: Yash Mahajan-D12C, Chaitanya Medidar - D11ADB, Sanisa Patrikar - D14A

2.4.6 Name of the Event: Zerve ai datathon

Event Organized by: IIT B

Place (Venue): IIT B

Date of Event: 11-01-2026

Award/Achievement: 7000

Competition Level: National

Title of the Project / Seminar / Workshop / Activity: Zerve ai datathon

Team Members: Ruturaj Amit Rajwade -D7C, Ruturaj Amit Rajwade D7C,
Vedang Mendhurwar D7B, Harshal Pednekar D6ADB

Vivekanand Education Society's Institute of Technology

Approved by AICTE & Affiliated to University of Mumbai

2.4.7 Name of the Event: ByteQuest Hackathon

Event Organized by: GFG Student Chapter, RBU

Place (Venue): Online

Date of Event: 03-01-2026

Award/Achievement: First Prize

Competition Level: National

Title of the Project / Seminar / Workshop / Activity: AI for Grievance Redressal
in Public Governance

Team Members: Prathamesh Kiran Joshi-D12B

Sahil Bajaj - D12B, Shraddha Bhagwat - D12B, Harsh Dhebe -D12B

Vivekanand Education Society's Institute of Technology

Approved by AICTE & Affiliated to University of Mumbai

2.4.8 Name of the Event: m-Indicator AI hackathon

Event Organized by: m-Indicator, VJTI

Place (Venue): VJTI, Matunga

Date of Event: 28-02-2026

Award/Achievement: Consolation Prize - 2 thousand rupees

Competition Level: National

Title of the Project / Seminar / Workshop / Activity: PragnaPath

Team Members: Manish Raje -D12B, Harshada Salunkhe (Not in VESIT)

2.4.9 Name of the Event: PVG's HackHub – National Level Hackathon

Event Organized by: PUNE VIDYARTHI GRIHA'S COLLEGE OF
ENGINEERING, NASHIK

Place (Venue): PVG's HackHub – National Level Hackathon

Date of Event: 10-11-2025

Award/Achievement: Second Runner Up

Competition Level: National

Vivekanand Education Society's Institute of Technology

Approved by AICTE & Affiliated to University of Mumbai

Title of the Project / Seminar / Workshop / Activity: ScribbleConvert - Transform Handwritten Notes to Perfect Digital Documents

Team Members: Gauri Vijay Doiphode -D12B, Niraj Chaudhari (D12B), Sahil Kachare (D12B), Harsh Tanwani (D12B)

2.4.10 Name of the Event: National AI Olympiad

Event Organized by: Accenture LearnVantage TalentSpring

Place (Venue): Hyderabad and Remote

Date of Event: 11-01-2026

Award/Achievement: Rank: 2nd in all India Advanced Category

Award: A samsung s24 phone

Competition Level: National

Title of the Project / Seminar / Workshop / Activity: Agentic AI Customer Service

Team Members: Dhruv Chatrani-D17A

2.4.11 Name of the Event: Quasar 4.0 Hackathon

Event Organized by: Vasantdada Patil Pratishthan's College of Engineering and visual arts

Place (Venue): Vasantdada Patil Pratishthan's College of Engineering and visual arts

Date of Event: 1/24/2026

Award/Achievement: 1st Runner Up. 30000

Competition Level: National

Title of the Project / Seminar / Workshop / Activity: Care360 - A hospital management smart software powered by AI

Team Members: Manas Patil - D12 B, Soham Kamathi - D12 B, Sejal Chaudhari - D12 B, Alfiya Siddique - D12 B

2.4.12 **Name of the Event: HackQuinox 2.0 (Hackathon)**

Event Organized by: FR. C. RODRIGUES INSTITUTE OF TECHNOLOGY

Place (Venue): FR. C. RODRIGUES INSTITUTE OF TECHNOLOGY, CAMPUS VASHI

Date of Event: 07-02-2026

Award/Achievement: Honorary Mention

Competition Level: Inter-Collegiate

Title of the Project / Seminar / Workshop / Activity: Automated Climate Control System

Team Members: Rushil Shitut-D7A, Shreya Thakur - D7A, Khushboo Choudhary - D7A

Vivekanand Education Society's Institute of Technology

		2.7.2.3 Sports Events The Sports Council organized a variety of exciting events including Dodgeball (girls & boys), Volleyball (boys), Throwball (girls), Kabaddi (boys), Tug of War (girls & boys), Kho-Kho (mixed), and Athletics (girls, boys, and mixed relay). CMPN students actively participated in all these																																																																									

			events, showcasing great enthusiasm, teamwork, and sportsmanship throughout the competitions.
	2.8	Alumni Interaction	
	2.8.1	V-REACH'26: “V-REACH” is an alumni engagement initiative conducted under the guidance of the Internal Quality Assurance Cell (IQAC). The initiative aims to strengthen the connection between alumni and current students by leveraging alumni expertise, industry exposure, and global perspectives. It serves as a platform for knowledge sharing, mentorship, and institutional development, enabling alumni to actively contribute to the growth and legacy of the institute. During the academic year 2025–26(EVEN SEM), the Department of Computer Engineering organized a series of insightful sessions under V-REACH, focusing on emerging technologies, innovation, career development, and competitive exam preparation. <u>Building with Agentic AI: The Next Leap in Intelligence</u> Date & Time: 07 April 2026, 11:30 AM Speakers: Ms. Heena Ramrakhyani (Vice President, JPMorgan Chase & Co.) Description : The session focused on the emerging paradigm of Agentic AI and how it is shaping the future of intelligent systems. The speaker, Vice President at JPMorgan Chase & Co., discussed how modern AI systems are evolving from passive models to autonomous agents capable of making decisions, executing tasks, and adapting in real time. Through practical insights, she explained the design and development of such systems and highlighted their applications across various industries. The talk also emphasized the growing importance of building scalable, adaptive, and intelligent AI solutions to drive innovation in the years ahead.

V-REACH '26

An Alumni Engagement Initiative by IQAC
In Association Institute Innovation Council (IIC)

Alumni Connect Initiative

Department of Computer Engineering

presents

Building with Agentic AI: The Next Leap in Intelligence.

IQAC Event ID: VESIT_2025_26_UID-0296

We are delighted to welcome Ms. Heena Ramrakhyani, a distinguished alumna of the Computer Engineering batch of 2017 and currently serving as Vice President at JPMorgan Chase & Co.

Join us for an insightful session titled

"Building with Agentic AI: The Next Leap in Intelligence."

In this engaging talk, she will delve into the evolving landscape of Agentic AI—intelligent systems that go beyond traditional responses to autonomously make decisions, execute tasks, and adapt in real time. She will share valuable insights into how such systems are designed and discuss their transformative impact across industries, offering a forward-looking perspective on the future of AI-driven innovation.

Speaker

Ms. Heena Ramrakhyani
(CMPN-2017)

Vice President at
JPMorgan Chase & Co.

community. The department's impact was prominently showcased through the recognition of its graduates with the evening's highest honors.

Distinguished Alumni

One of the Distinguished alumni was Wing Commander Suraj Nair – Indian Air Force. He was commissioned as an officer in the Indian Air Force in 2011 and has since served the nation as a highly accomplished helicopter pilot. Currently, he flies the Mi-17 V5 helicopter of the Indian Air Force and has accumulated over 2,500 hours of flying experience.

Distinguished Alumni Awardee : Wing Commander Suraj Nair, 2010 , CMPN Dept

In his 14 years of service, he has been posted across the length and breadth of the country, flying in some of the most challenging terrains—from the Northern glaciers, to the Western deserts, and the Northeastern mountainous jungle regions.

For his exceptional courage and gallantry in the face of enemy threat, he was awarded the prestigious Presidential Award – Vayu Sena Medal in 2022

Mrs. Mangalam Ganesh – Chief Technology Officer, HDFC Securities

Chief Technology Officer at HDFC Securities, she leads enterprise-wide technology strategy, digital transformation, cybersecurity, and innovation initiatives, powering millions of customer interactions every day.

Distinguished Alumni Awardee : Mrs. Mangala Ganesh Batch 1998, CMPN Dept

Annual Prize Distribution Ceremony 2025–2026

Date & Time: Thursday, 2nd April 2026, 10:00 AM

Venue: VESIT Auditorium

Chief Guest:

Mr. Umesh Gureja (Partner, Chief Technology Officer – Tax, Deloitte T.T. India LLP)

Overview:

The Annual Prize Distribution Ceremony for the academic year 2025–26 was

organized by Vivekanand Education Society's Institute of Technology (VESIT) to recognize and celebrate the outstanding achievements of students in academic and co-curricular domains. The event was graced by the Chief Guest, Mr. Umesh Gureja, who shared valuable insights and inspired students to strive for excellence in their professional careers. The ceremony honored meritorious students for their exceptional performance and contributions, fostering a culture of achievement and continuous improvement. The presence of management, principal, faculty, staff, and students contributed to the success of the event and reflected the institute's commitment to holistic development.

CMPN Rank Holders

- Final Year:
Chugeja Piyush Kamlesh Muskan – 1st Rank
Dongare Sarvesh Sudhakar Surekha – 2nd Rank
- Third Year:
Ahuja Nishika Sanju Karina – 1st Rank
Dehadray Ishwari Sunil Sadhana – 1st Rank
- Second Year:
Singh Akritee Nitesh Poonam – 1st Rank
Gupta Aanchal Kumari Sangeeta – 2nd Rank

Special Awards:

The **Annapoorni Ramaswamy Award**, instituted by Venkatesh Ramaswamy (2001 Computer batch alumnus), is presented to the student securing the highest marks in the final year across all branches. This award was conferred upon **Chugeja Piyush Kamlesh Muskan**.

The **Sirin Dedhia Memorial Award** is awarded to the student securing the first rank in the final year of the Computer Engineering program. This award was also received by **Chugeja Piyush Kamlesh Muskan**.

Dignitaries on the dias during the Degree Distribution Ceremony

The Degree Distribution Ceremony for the VESIT Computer Engineering Batch of 2021-25 celebrated the students' resilience in transitioning from hybrid learning to professional excellence. Our Chief guest Dr. Vijay Talreja highlighted the batch's technical mastery in AI and Cloud Computing, showcased through impactful final-year projects and successful placements at prestigious firms like JPMorgan Chase and IBM. Graduates were urged to maintain a commitment to continuous learning and ethical engineering, ensuring their innovations prioritize data privacy and societal well-being. By emphasizing the importance of the V-REACH alumni network, the speaker encouraged a culture of mentorship and lifelong connection to the institute. Ultimately, the address framed the degree as a testament to perseverance, charging the new engineers to act as visionary problem-solvers contributing to the nation's digital future.

Prof. Valerie Varney <ste-conference@conftool.com>
to ranjanbala.jain, me, 2023.abhishek.vishwakarma, 2023.yash.mahajan, 2023.ryan.dsouza

Tue, Jan 13, 12:00 PM

Dear Colleagues,

I hope this message finds you well. To start off 2026 with good news, I am pleased to inform you that after thorough consideration by our award committee, your application for the GOLC award in the category of Simulated and Digitally Visualized Experiments stood out amongst a pool of exciting submissions. It is with great pleasure that I extend my heartfelt congratulations to you on being selected as this year's winner.

Your dedication, hard work, and outstanding contributions in the field of remote laboratories have not gone unnoticed. Your outstanding achievements made a great impression on the award committee, and we are honored to recognize your excellence.

As the winner of the GOLC award 2026 in the category of Simulated and Digitally Visualized Experiments, we look forward to welcoming you to the STE Conference 2026 where we would like to formally present the award to you and celebrate your remarkable accomplishments. The award includes the coverage of the conference fee for one person. Furthermore, we extend an invitation for you to present your laboratory during the Special Session on Online Laboratories.

Your commitment to creating exceptional learning environments serves as an inspiration to us all. Once again, congratulations on this well-deserved honor.

Please let us know your availability for the STE Conference 2026 as soon as possible, and we will ensure all arrangements are made accordingly.

We are looking forward to celebrating your success together.

Kind regards,

Prof. Dr. Valerie Varney

GOLC President and Vice President IAOE
